

A hank of hair an piece of bone, and an eye of Newt Genrich makes a walk'n talk'n Cornpone. Who the H' elected him king of the wood pile. That's where critters al'sways crawled out frum back home. I mean good ole Newt an' "the Jesse from Helms" is making Hillery look good.

Yuk!!! I can't believe I said that, but you get the picture.

If you listen to the NEW REPUBLICians, they're take'n credit for the upward trend of the economy, the greening of the world, the sun rising over Georgia, and Moon-bows over North Carolina or wherever the Helms he's from. What comes first, the chicken, I mean the politician, or the scrambled eggs?

Did you vote for any of these jokers to run our country. I sort'a forgot how come one guy was speaker and the other guy sat on the grump stump. Little did I know we had someone equally stupid in government

as our old buddy Yeltsen, in what's left of "going-down-the-tubes Russia". Shades of Tip O'neal!??

Where have I been??

Turn around and it's gone, and I wasn't even havin' fun. How could it be Christmas and soon a new year? Next thing you know it'll actually be 2020. Who knows, maybe Hillery will go behind closed doors with somebody she likes and decide whatever? Heaven help us!

Speaking of "back-trackin'" Hillery... have you read the new medical term definitions she used in her, excuse me, our new Obama Health Care Plan? Yet, for all I know some of the doctors have been using them for a long time, maybe Hillery's lackeys copied it from the old Destin Hummania note book.... You never know...

Artery = the study of art; Bacteria = back door of cafeteria; Barium = what doctors do when patient dies; Benign = what you be after eight; Bowel = letter like, A,E,I,O or U; Caesarian Section = neighborhood in Rome; Cat Scan = searching for kitty; Cauterize = making eye contact with her; Colic = a sheep dog; D & C = where Washington is; Dilate = to live long; Enema = not a friend; Fester = quicker; Genital = not a Jew; Impotent = distinguished, well known;

Morbid = higher offer; Nitrates = cheaper than day; Outpatient = patient who fainted; Pap Smear = demeaning a father; Pelvis = cousin of Elvis; Recovery Room = place to reupholstery furniture; Rectum = dang near killed `em; Seizure = Roman emperor; Tablet = small table; Terminal Illness = sickness caught at the airport; Tumor = more than one; Urine = opposite of you're out; Vein = conceited; Varicose = nearby.

So what's next?
