

Hillery would'a made a hell`a`va programer! Sheez... good thang Billy G. and Hillery didn't get together for that back then... it'd still be `95 all over us... so's no mater where you stepped it'd be there, it'd be the official IRS program, you couldn't get your return unless you placed `95 on your forehead. Do you suppose Hillery secretly runs the IRS? Something to think about huh!

I think Margaret Richardson the acclaimed IRS leader of old was a fake name for Hillery, you know the gal that wrote the dear taxpayer letter for the 1040 people. Where you reckon they got that number... 1040 that is...something satanic I guess.

Anyway she said in her fiction for the IRS that they incorporated all the helpful suggestions into the BOOK they use this year. Can you imagine this they claim you can actually finish figuring your stuff for the IRS in record time! What you reckon that means, actually it will be longer no doubt?

Looking at the "Estimated Preparation Time" table, I see I needed only 36 hours to complete form 1040 with the appropriate forms A, B, C, D, E, and 4562, 6252, and 8582 and ... You get the picture? It often took me several hours alone, just to figure out the mumbojumbo to get started... or at least MY interpretation of it. Wonder what would have happened if they didn't incorporate our suggestions. Obviously they didn't take mine seriously... or else they'd'a known where to put the whole shebang! If you want to you can contact them at:

http://www.irs.ustreas.gov/screwu_docs if you got the guts... I mean they already got your `95 number and everything else... best let sleeping dogs lie... maybe...

"You must capitalize part of the indirect costs that benefit real or tangible personal property constructed for use in a trade or business, or noninventory property produced for sale to customers. Then add the amount on lines 7, 8, 9, 10, 11, 12, 13, 14, 15, 16, 17, 19 and 21. Do not include amounts from line 5. If line 3 is more than zero, multiply line 3 by 92.35%. Otherwise, enter amount from line 3. If you elected one or both optional methods, enter the total of lines 15 and 17 here. Qualified nonrecourse financing secured by real property used in an activity

of holding real property that is subject to the at-risk rules is treated as an amount at risk. Losses deductible under the at-risk rules are subject to the passive activity rules, see PUB 925 for special At-Risk and Passive Activity rules. Subtract lines 32 from line 3. If zero or less STOP: you cannot use this form."

I kid you not... it's in THE BOOK!

So what's next?
